Experience

Platform Tester - 09/2023 to Present
Lotus Interworks Inc, Los Angeles, United States - Remote
- Lotus Interworks is both a product and a service-based company which offers solutions like AI Powered websites, and Several AI Powered Solutions.

- Projects I worked on while I was working in Lotus Interworks –

  o **Simpliathon Platform – (HackFestSimplia.ai) We created an inhouse hackathon platform in WordPress with functionalities such as team creation, project submission, live code editor.**

  o **NewsGraphAI Website – Platform where news is generated by AI and it's a self-governing system. AI was injected at 10 stages of news pipeline.**

  o **AI Website builder– This project creates entire wordpress websites with simple prompts.**

- Worked on an on-call basis with clients, account managers, subject matter experts and project team in the development of database driven websites.

- Developed projects using **WordPress, Core PHP**, and fixed bugs faced by clients, end users, development team, SEO team and web design team.

- Proactively looked for ways to improve performance, simplify interactions, & make sites better.

Associate Developer PHP - 08/2021 to 03/2023

SportzInteractive.net, Mumbai, Maharashtra, India - Remote

- Sportz Interactive is a sports-focused digital media agency delivering best-in-class websites, mobile applications, fantasy gaming, content and social media management services to national and international organizations.

- Projects I managed and worked on while I was working in Sportz Interactive –

  o **International Paralympic Committee Website – Paralympic.org – Acted as Full time Support Engineer**

  o **Abu Dhabi T10 League Website – ttensports.com**

- Collaborated as a member of an agile team to get products developed, modified and managed with best in class software development.

- Worked on an on-call basis with clients, subject matter experts and project team in the development of database driven websites.

- Developed projects using **Drupal 9, Core PHP**, and fixed bugs faced by clients, end users, development team, SEO team and web design team.

- Proactively looked for ways to improve performance, simplify interactions, & make sites better.

Freelance Web Developer - 05/2019 to Present

akshaypachouri.com, Remote

- Custom development that ranges from website built on **WordPress** to large projects using frameworks, *ReactJS, Drupal, and PHP*.

- Developing and maintaining the website, front and back-end functionality of the website to produce clean code that follows the design and functional specifications.

- Fixing existing websites, removing website bugs and enhancing the websites.

- Providing technical training to end users & assisting in customizing the website as per requirements by creating manuals and verbally over telephonic meetings.

- Effectively planning, scheduling and arranging the tasks to ensure the project moves through its lifecycle with few problems.

- Some of my clients while I was freelancing were –

  o **[Safe Room Designs](), USA** – USA's leading Tiny Home Builders and manufacturers.

- o **SRD Hummer Trucks, North America** – Hummer Trucks Manufacturer for entire North American Continent.
- o **SentryBoats, UK** – Safety & Rescue boats providers.
- o **FoodElthy, Singapore** – Building a platform Kisaan Market in Drupal 9 for them.
- o **Bayityres, China** – Mass Manufacturer and supplier of different types of Tyres.
- o **MSACase, China** – Mass Manufacturer and supplier for Aluminium Cases.
- o **MyRawVegan.shop, US** – Marketplace for Vegan Products, By Shore Group Technologies.
- o **Tofu POS & Payment Solutions, US** – POS and Payment Solutions Company in US
